Cost incurred for hired person(s):	\$

Please return form to: PECSD at 200 Lundy Lane. If closed, in the mail drop next to the office window. Or, email at heather.pecsd@gmail.com. Thank You. PECSD Firewise Committee.

Office use only. Firewise Committee Control Number _____

The Firewise Committee must collect data showing how much effort is being exerted by the members of the Plumas Eureka Community Services District in order to retain Firewise certification. The information asked for is, in the larger part, self evident. We need to know:

The date(s) the work was performed.

The name of the property owner.

The PECSD address or location where the work was performed.

Telephone number and/or email address if we need to contact you.

Number of unpaid people who assisted you in the work (friends, relatives).

Total number of hours the above people worked.

Type of Firewise work performed. Types of work can include trimming, pruning, tree limbing, tree removal and brush clearing. Also cleaning roof gutters and roof valleys of pine needles. Moving firewood off of decks or away from structures. Replacing and/or removing flammable bushes such as junipers and scotch broom with lower ignition bushes.

If you had to purchase additional tools we'd like the total cost. Item such as axes, saws, rakes etc.

If you hired contractors, such as roofers who replaced a wood shake roof, handymen, landscapers, gardeners, and general maintenance people to perform Firewise activities we would like their name.

We would like to know what types of Firewise work was performed. See above for examples.

We would like to know the total contractor cost incurred. We do not need the number of people involved nor the total hours for contract work performed.
