RATE STUDY WORKSHOP SUMMARY

February 20, 2024

6:00 PM

200 Lundy Lane

BLAIRSDEN, CA 96103

Special Guest and Presenter

Blair Aas from SCI

Present from the CSD

Chairperson Don Fregulia

General Manager Jamar Tate

Administrative Manager Gina-Marie Morris

Project Manager John Rowden

Eleven (11) members from the community were physically in attendance. On Zoom there were four (4) additional individuals.

Project Manager John Rowden shared the overall goal and upcoming projects the CSD is taking into consideration with this rate study.

Mr. Blair Aas presented the attached slides. Two options are currently being entertained for each of the Water and Wastewater Enterprises.

On the Water side, each option would call for a reduction in overall fees with substantial increases in 5-10 years. The general conversation from the attendees was the desire to not decrease the rates but to maintain the current rates to pre-fund the Water Treatment Plant.

The Wastewater side, on the other hand, calls for an increase in overall rates. The public expressed concerns about the age of the infrastructure and the need to expedite replacement and/or improvements. The rate study also takes into account the retirement of the agreement with the Eureka Estates Subdivision and strives to simplify and level out the rates amongst all customers.

The CSD does recognize that there were some technical difficulties for the Zoom participants. We do apologize and have taken note of all comments as we wish to learn from this experience to do better in the future.
