

CHIEF'S REPORT

September 2021

Call Reports and Training

Calls – Medicals & MVA's: 1, Fire: 0

We are keeping abreast of the latest precautions for the coronavirus and will continue to follow CDC and NorCal EMS guidelines and requirements.

Training – No formal training held.

Personnel Activity

- On September 15th 9122 and 4 personnel were assigned to the Susanville Helibase for crash/ rescue. We are rotating personnel while maintaining coverage for our district.

Fire Equipment

- 9178 Multiple leaks are now reduced to two outstanding:
 1. A water leak from the pipe to the tank issue has decreased significantly and should be fixed with another coat of JB weld.
 2. The last major issue is with the packing around the main pump.
- I called Burton's Fire in Modesto about the main pump packing issue. Without any kind of inspection Ken Burton estimated \$2.5k as best case, but more likely \$4k and up depending on what they find.
- Renovations on the new command vehicle continue. Headlights and running boards installation scheduled for this coming Saturday. Emergency lights and Radio are next.

Other Activity

- **Burn permits have been suspended and outside burning is prohibited.** The Air Quality Board determines burn days. Please call (530) 832-4528, press 5 for our region, and listen to the entire message for day designation and instructions.
- Need to update our: Outside of Fire District billing process.
