5. Water System Compliance

Results from testing October 6, 2020, showed the As level at the compliance point to be 12ppb; at Well 1B to be 7 ppb; and at Well 2 to be 18 ppb. The EPA Standard is 10 ppb. The 3rd Quarter average is 13 ppb at the compliance point, 8 ppb at Well 1B, and 19 ppb at Well 2. The running annual average (RAA) at the compliance point is 9 ppb, 7 ppb at Well 1B, and 13 ppb at Well 2.

The results of testing for Iron and Manganese taken October 6, 2020, were 0.280 at Well 1B and 0.450 at Well 2 for Iron; for Manganese, the results were 0.092 mg/l at Well 1B and 0.101 mg/l at Well 2, The Secondary Standard for Iron is 0.300 mg/l. The Secondary Standard for Manganese is 0.05 mg/l.

The State Water Resources Control Board approved the District's request and granted a waiver from the secondary standards for Iron and Manganese. The waiver went into effect on October 1, 2020 and will be in effect for nine (9) years.

Interim General Manager John Rowden advised the Board that the Water and Wastewater Standing Committee met on October 22 and continued discussions about what direction the District should proceed with the water system given the results of the waiver survey and the current status of plans and the system. The results of the meeting will be presented by Steve Janovick

*Clerk's Note: Item 7: Committee Reports – Water and Wastewater Services was addressed by the Board at this time.*

Board Director Steve Janovick advised the Board of the considerations of the committee including:

- Aging System
- Current Fee Structure
- Increasing Costs
- Vulnerable--one well that meets As standards
- Other

Director Janovick provided the following recommendations from the Committee:

- Rehab the existing wells: efforts are needed regardless of what else needs to be done
- Build the treatment plant as designed (does not include removal of iron)
  - The District needs a reliable source of drinking water
  - A treatment plant will assure compliance with As standards and provide capacity to remove Fe and Mn
  - Fee structure to finance the plant is in place
  - The Design is completed
  - Delaying Construction will increase costs estimated at 3% per year

Following a discussion, the Board directed Interim General Manager John Rowden to investigate restarting the construction process, while also preparing additional ratepayer outreach about the decision.

#### 6. WWTP 6 Repair or Replacement

The Board was briefed by Chief Operator Jamar Tate that the contractor chosen to the WWTP 6 lift station has begun staging equipment. The contract has been reviewed by District Counsel and is awaiting contractor signature.

b. Administration

i. Preparation for Audit of FY 2019-20 FY Activities

The Board was advised that, due to previously undiscovered bookkeeping errors and other complications of COVID-19 the audit field work scheduled for earlier this month had to be canceled. The Board will be advised once the work has been rescheduled.

ii. Status of Invoices and Liens

Administrative manager Jillian Cole advised the Board that while payments continued to be received, changes in payment trends and patterns had caused a significant increase in administrative time and attention spent exclusively on receivables on a monthly basis. Ms Cole stated she expected to discuss these issues in further detail with the Administrative Services Committee later in the month.

iii. Administrative Improvements Contract

The Board was advised that Ms Rowden-Low continues to make impressive progress with the office reorganization project. All District properties now have a central file containing all pertinent owner history and County APN status which has been cross-referenced and confirmed with County and local records. These files will subsequently hold other pertinent location-based information, and will ultimately, be integrated into the District's mapping database to improve information flow going forward.

c. Projects, Operations & Maintenance

i. Operations and Maintenance

Water system flows for the month of October 2020 were 6,429,732 gallons at Well 1b and 1,148,300 gallons at Well 2 for a total of 7,578,032 gallons.

**Well 2:** The siding replacement on the building has been completed

**Water Tank Communication:** Operators have experienced communication issues between the tank and Well 2

**Irrigation @ Sequoia Park:** Irrigation at the park has been winterized for the season.

Wastewater Flows for the Month of July 2020 were 412,720 gallons at WWTP 6 and 1,033,233 gallons at WWTP 7.

**VFD @ WWTP 7:** VFD #1 at the plant has been assessed by Sierra Controls. The drive has failed, and a replacement has been ordered. We are awaiting the parts arrival and installation by Sierra Controls.

**WWTP 6:** Operators have picked up the new pumps and rail system for the lift station project.

**Madora Lake Road Repair:** Operators, along with Farr West, met with the USFS about the road repair to take place soon. All lines have been marked with paint for location, including the golf course irrigation line.

**Winterization:** The facilities have been winterized, including snow poles being set out to mark the fire hydrants.
