

FIREWISE Workday

COMMUNITIES®

Help us to join together as a community to take control and reduce wildfire risks to our homes! Your local Plumas Estates Firewise team is sponsoring our first Firewise workday this year. The workday is our community's first step to remove flammable fuels, reducing the potential for wildfire ignition and spread.

Saturday, June 15
9am – 11am @ Sequoia Park

What to Expect:

We are planning to remove pine needles and fallen tree limbs that threaten homes in the area and threaten important CSD infrastructure.

Where to Park:

Along Cottonwood Drive near the community swimming pool.

Our team will be available to direct you to the park.

What will be provided:

Water and cold beverages will be provided by Firewise.

What to Bring:

- Work clothes
- Rake
- Insect repellent
- Eye protection
- Work gloves
- Masks
- Sunscreen
- Sun Hats

*As much as we know you love your four-legged companion, this event will not be fun for them. So please, leave them at home where they will be happy and safe.

Clean up is finished, now what?

Following the event a pizza luncheon will be provided!

We are excited our community is committed to reducing wildfire risks around our homes and look forward to meeting our neighbors at this community event.
